EINLADUNG INFECTION PREVENTION

Sehr geehrte Kolleginnen und Kollegen,

alle zwei Jahre findet, abwechselnd mit dem Ulmer Symposium, der DGKH-Kongress in Berlin statt. 2014 hat der Vorstand der DGKH beschlossen, dass in den Jahren zwischen den DGKH-Kongressen zumindest eintägige Workshops stattfinden sollen. Da die internationale Vernetzung der Krankenhaushygiene immer mehr zunimmt und auch für Deutschland bedeutend ist, wird der Workshop im Jahr 2015 international ausgerichtet sein und soll Unterschiede und Gemeinsamkeiten der Hygiene in verschiedenen europäischen Ländern aufzeigen. Schwerpunkte werden die Hygiene im OP sowie multiresistente Bakterien sein. Daneben werden einzelne Aspekte wie Simulationstraining in Frankreich, Initiativen auf europäischer Ebene und Vorgehensweisen in Spanien Gegenstand der Vorträge und Diskussionen sein.

Alle Vorträge werden simultan auch ins Deutsche übersetzt.

Wir freuen uns, dass EUNETIPS (European network to promote infection prevention for patient safety) Coorganisator des Workshops ist.

Der Vorstand der DGKH lädt Sie ganz herzlich zur Teilnahme ein und freut sich auf interessante und kritische Diskussionen zusammen mit Ihnen.

Prof. Dr. Walter Popp
Wissenschaftliche Leitung
Vizepräsident der DGKH

INVITATION INFECTION PREVENTION

Dear colleagues,

every second year, the Congress of the German Society of Hospital Hygiene (DGKH) will take place in Berlin in alternation to the Symposium in Ulm. The board of the DGKH decided in 2014 that a minimum of a one-day-workshop will take place in the years between the congresses. Due to the increasing importance of international networking in hospital hygiene – and so it is for Germany as well – this workshop in 2015 will have an international orientation and should show the similarities and differences of hospital hygiene in different European countries. Focus will be put on hygiene by operations as well as multi-resistant bacteria. Further than that single aspects will be treated during the lectures and discussions such as simulation training in France, initiatives on European level and proceeding in Spain.

All the lectures will be translated simultaneously into German.

We are very pleased to have EUNETIPS (European network to promote infection prevention for patient safety) as the co-organizer of this workshop.

The board of the DGKH is cordially inviting you to participate and is anticipating very interesting and critical discussions with the attendees.

Prof. Dr. Walter Popp
Wissenschaftliche Leitung
Vizepräsident der DGKH

PROGRAM FRIDAY, 26 JUNE 2015

- 10:00** **Welcome**
Martin Exner – President DGKH (Germany)
- Aim of the workshop**
Walter Popp (Germany)
- 10:05-11:45** **Hygiene in Surgery**
- Air supply in operating theatres – the French view**
Pierre Parneix (France)
- Air supply in operating theatres – the German view**
Frank Wille (Germany)
- Swedish initiatives – root cause analysis after surgical site infections in orthopedic and heart surgery**
Birgitta Lytsy (Sweden)
- 11:45-12:45** **Lunch and visit of the industrial exhibition**
- 12:45-15:00** **Handling of patients with multi-resistant bacteria**
- How we do it in France**
Bruno Grandbastien (France)
- Should we screen for multi-resistant gram-negative bacteria?**
Peter Walger (Germany)
- Lessons learnt from outbreaks of multi-resistant bacteria – consequences for prevention**
Martin Exner (Germany)
- Prevention of antibiotic resistance in a connected world**
Alex Friedrich (Netherlands)
- 15:00-15:30** **Coffee break**
- 15:30-17:00** **What else?**
- Simulation training in infection control**
Pierre Parneix (France)
- Improving Infection Control and Hospital Hygiene in Europe – professional Networks and European Programs**
Silvio Brusaferrero (Italy)
- Development of a regional plan for the prevention of carbapenemase-producing enterobacteriaceae infections**
Angel Asensio (Spain)
- 17:00** **Closing words**
Walter Popp (Germany)
